How many windows total will you consider once satisfied:

Notes:

Save, fill out and email this sheet in to eric@windowinserts.com for an estimate

Sheet can be faxed in to (888) 489-9462 - no cover sheet needed.

In order to get a starter window, we need to know how many you'll consider once satisfied.

Your volume discount is based number and sizes of all your windows - try one - you'll get the rest.

A starter window is usually a single smaller window or standard size window split for shipping reasons.

Measure the opening where the insert will be pushed into - more space is usually better.

Window #	Room/Location	Top	Use inches and eighths or sixteenths if possible.				Right	Color
			Width	Width	Width	Height		
1	eg. LR, KT, MBD						White or	
2	BD1, Bth, DR						Brown
